*What is  
Kangen Water?*

TURNING TAP WATER INTO TRUE ALKALIZED WATER

# KANGEN *Water!*

*science, health & my personal story*

- Kangen water is electrolysed reduced hydrogen rich ionized water made by the company Enagic
- It's created in nature through lightning and through natural springs like Wideawake spring in Nederland Colorado
- It's the only medical grade water ionizer : 2.5
- Enagic has been around for over 40 years and is an OEM company

*hoolawai.com*

K A N G E N 9 . 5

# hydration

*The most important aspect of health is to be hydrated; and this is the only water that can achieve that*

@hoolawai

## DEHYDRATION

**1. decreases the amount of blood in your body which makes your heart work harder to pump blood**

**2. your cells are smaller aka shriveled & cannot perform their optimal function**

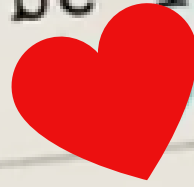

**3. less blood volume means less oxygen + nutrients to your tissues**

# Diseases and kangen

most diseases and health conditions can be linked to oxidative stress and chronic inflammation

- mental health (anxiety and depression)

- diabetes

- alcohol (hangovers)

- reflux disease

- cancer

- crohn's disease

- thyroid issues

- ALS

- Arthritis

- Skin conditions (eczema and acne)

- athlete recovery

- skin and beauty

# how we heal

acidity=inflammation. Kangen provides alkalinity  
oxidation=aging. Kangen provides antioxidants

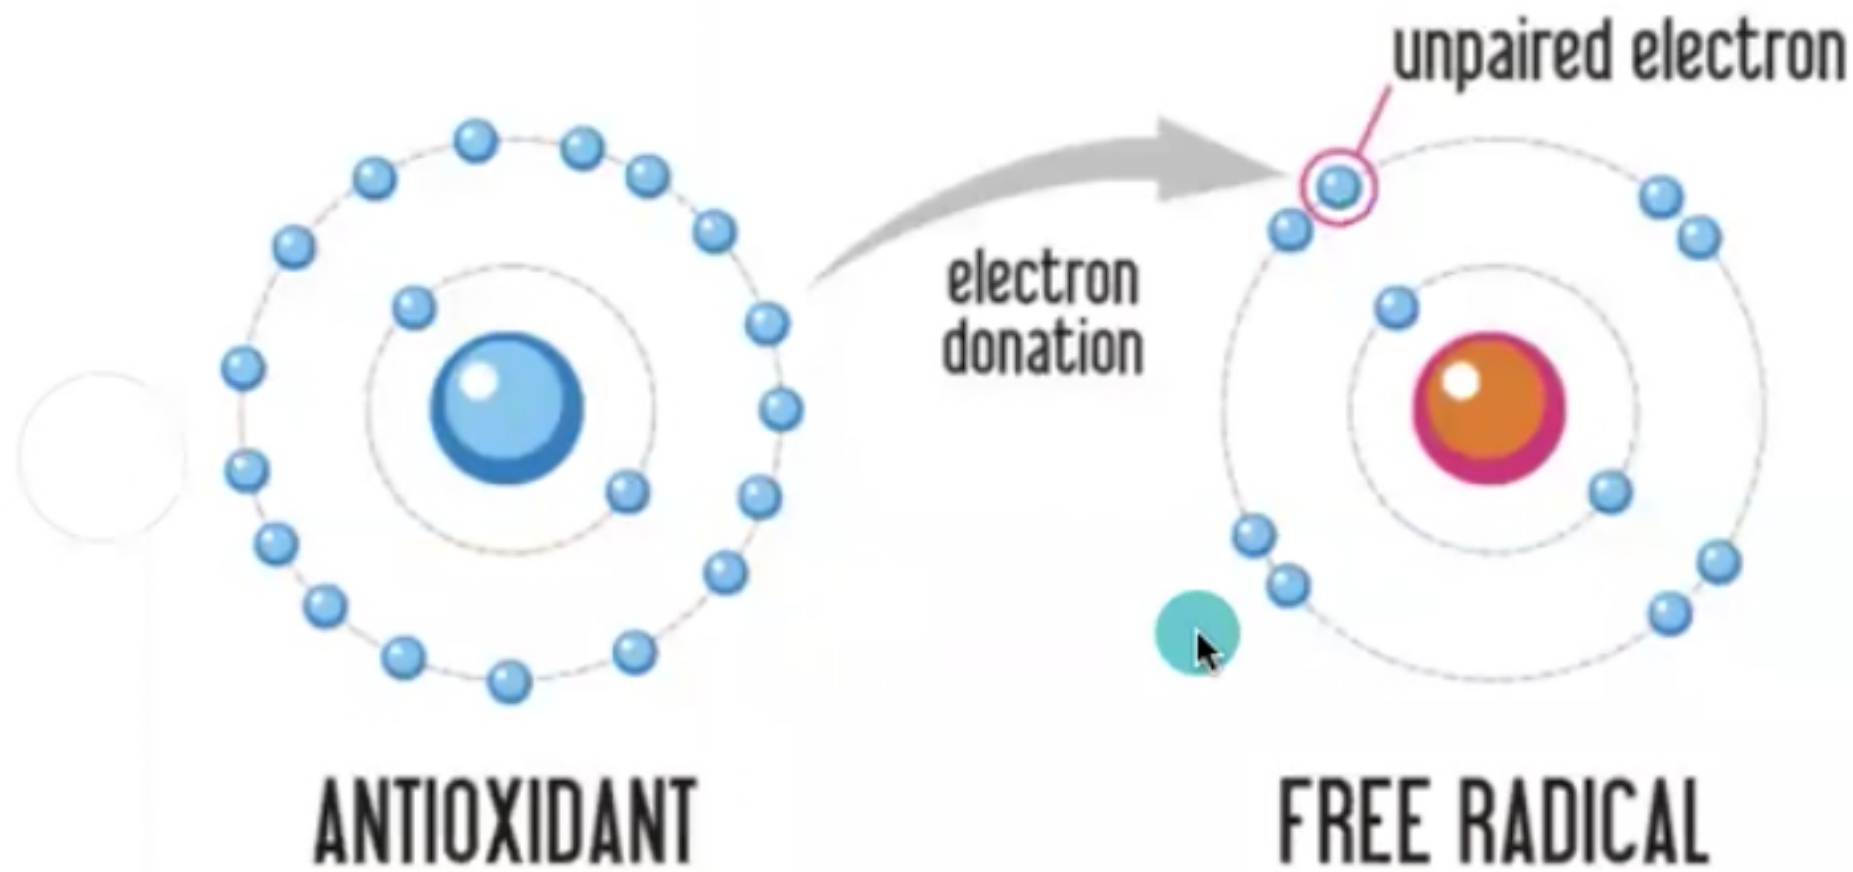

*not just any, kangen provides the highest and most "bio-available" levels that exist!  
This is why there are so many health claims, it actually heals your body from inside out.*

*On the machine it will be setting 9.5 kangen water*

*hoolawai.com*

# MAIN PROPERTY OF THE WATER!

H<sub>2</sub> is a selective antioxidant. Meaning it goes after harmful free radicals in our body to neutralize them by lending an electron to them. Combating oxidative stress and chronic inflammation in our bodies. SLOWING DOWN THE AGING PROCESS.

**PREVENTATIVE HEALTHCARE**

BIO-AVAILABILITY

This new structure that's created is rich in molecular hydrogen (from  $H^+$  to  $H_2$ )

**Hydrogen** is the **smallest molecule** in the universe and this extremely small size and its high lipid solubility, allows it to easily diffuse into the subcellular compartments of the mitochondria (the engine room of a biological system's cells) and other locations throughout the entire body.

Because hydrogen is so small it's able to penetrate our blood brain barrier to hydrate our cells faster and more effectively than filtered, tap, or fresh spring water!

all this  
talk  
about h<sub>2</sub>  
is because

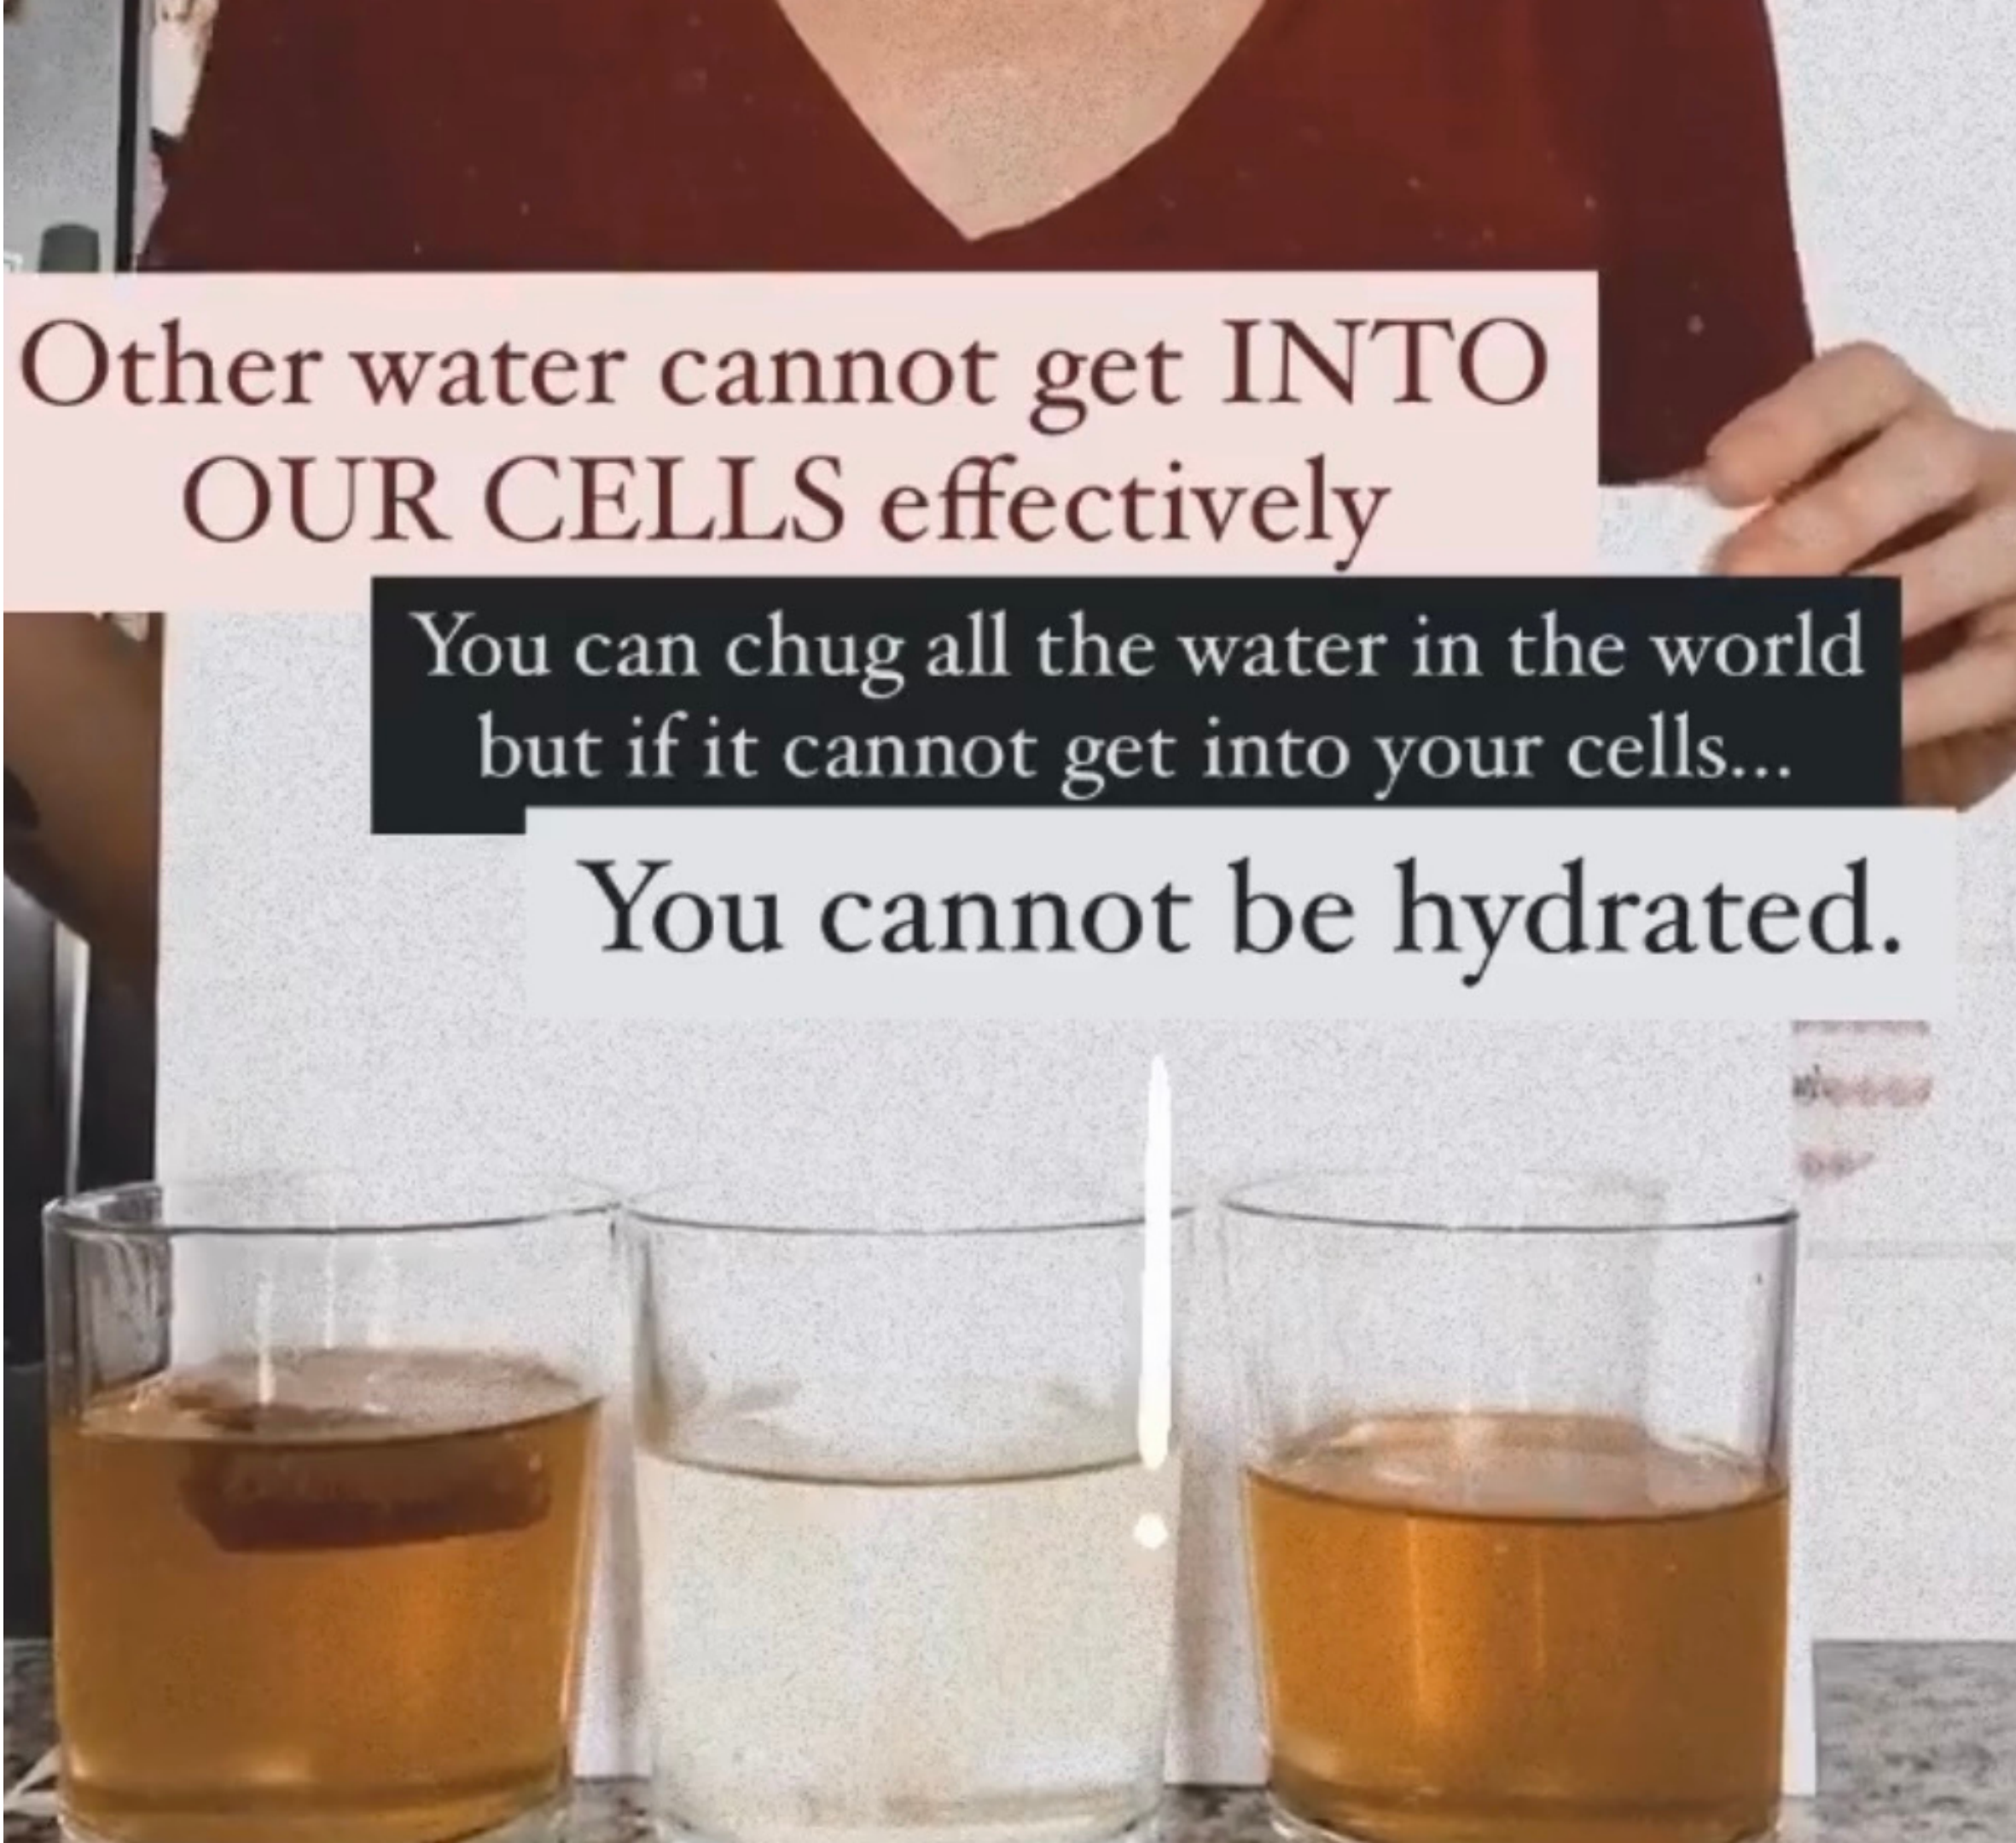

@hoolawai

Other water cannot get INTO  
OUR CELLS effectively

You can chug all the water in the world  
but if it cannot get into your cells...

You cannot be hydrated.

Oxidative stress happens naturally in our bodies but certain things can make oxidative stress increase like travel, a poor diet, drinking bottled or tap water.

Kangen water machines take tap water that is oxidizing to our body and turns it into water that can help prevent diseases and slow down the aging process.

It takes 5lbs of blueberries to get the same antioxidants as one cup of kangen water.

KANGEN

*h2*

=

*5 lbs*

*antioxidant equivalence*

*1 cup*

THERES SO MUCH MORE

*11.5*

*soak all food in 11.5 for just a few minutes before eating*

@hoolawai

THINK ABOUT ALL THE  
PESTICIDES AND  
HERBICIDES THAT  
YOU'LL NEVER HAVE TO  
WORRY ABOUT AGAIN-  
BECAUSE 11.5PH WASHES  
THOSE NASTY OIL BASES  
RIGHT OFF

**Source:** npic.orst.edu

## Pesticides have a specific purpose in society. Pesticides are intended to:

- kill organisms that cause disease and threaten **public health**.
- control insects, fungus, and weeds that damage crops.
- control pests that damage homes and structures vital to public safety.

Because people use **pesticides** to kill, prevent, repel, or in some way adversely affect some living organism (the pest), pesticides by their nature are toxic to some degree. Even the **least-toxic products**, and those that are natural or **organic**, can cause health problems if someone is exposed to enough of it.

If you eat a lot of fruits and veggies like I am it is so important that you don't consume the toxic chemicals that have been sprayed on them!

## Cooking with Kangen water

Besides removing pesticides off my produce I love cooking grains like quinoa and oats in Kangen because they always come out so much fluffier than when I cook with filtered water 😊

THERE'S MORE!

2.5

*this is a safe, non-toxic  
disinfectant*

# HYPOCHLOROUS ACID WATER

RINSE ALL FRUITS, VEGETABLES AND MEAT  
AND LET SIT FOR ONE MINUTE BEFORE  
SOAKING IN 11.5PH.

THIS WILL KILL ALL MICROBES, MRSA,  
SALMONELLA, E.COLI, INFECTIONS AND SO  
MUCH.

USE FOR DISINFECTING ANYTHING.

# KANGEN HEALING

*11.5 + 2.5*

because of how powerful, effective and safe this water is, we can use it to treat wounds for cleaner quicker healing and treat infections resistant to antibiotics or antifungals

*this aspect is worth the cost of the machine for your families health future*

I helped this kid with mrsa using the water protocol

4-5 days difference between the picture above and this one hec went to the doctor a week later and there were no signs of mrsa in his blood

**K A N G E N**

*2.5*

*you'll save thousands \$  
per year for 30years,  
never buying another  
plastic bottled cleaning  
product again*

**CLEANING**

@ALKALINESOURCE

**PRODUCTS**

REPLACE ALL HOME CLEANERS WITH 2.5PH.
